Accelerated Curing Tank JPI 7036

Standards:

Specification:

Accelerated Curing Tank is used to maintain moisture content and temperature in freshly cast concrete for a definite time period. It prevents the loss of moisture from concrete. The tank is fully insulated and having free circulation of water around each concrete sample.

- Manufactured with good quality material
- Long life
- Highly efficient
- Easy to use with minimal maintenance requirements

JPI 8036

Accelerated Curing Tank
