TDS MetEarth resistivity / Rechargeable Accumulator P-100-2-N ZI 10012

Standards:

Specification:

A valid and ecological alternative to old 90V battery, P-100-2-N represents a renewable energy source for Vertical Electrical Soundings (VES). More accumulators can be connected in series to obtain up to 1000V.

P-100-2-N is compatible with all PASI earth resistivity meters.

P100-2-N:200V – 500mA max, adjustable

Main features:

Internal 12V-12Ah Pb-gel battery

Output voltage from 0-200 V

Output current 500 mA

Protection against short circuits

Indication of battery charge on three levels

Indication of current overload

RESERVE button (reset and forced activation)

Battery charger connector protected against polarity inversions
